Auckland Park, Johannesburg - 2092, South Africa

OBJECTIVE

Passionate Web Developer and Computer Science student at the University of Johannesburg with a track record of excellence and leadership. Excels in project planning, development, and teamwork, with a strong drive to build a career in Software Engineering, focusing on mobile and web development. Ready to create impactful digital solutions.

EXPERIENCE

- **Mamqoco Innovative Design [MID] Solutions** [[Link](#)] February 2023 - February 2024
Web Developer Johannesburg
 - Website Development: Planned, designed, and built the company's website from the ground up using Adobe Illustrator for wireframes and design mockups, and implemented them with HTML5, CSS3, and JavaScript. Ensured a responsive and user-friendly interface across all devices.
 - Maintenance and Updates: Continuously maintained and updated the website, incorporating new features and improvements based on user feedback and emerging web technologies. Worked to ensure cross-browser compatibility and optimal loading times.
 - Search Engine Optimization (SEO): Led the SEO strategy for the website, optimizing content, meta tags, and site structure to improve search engine rankings. Utilized best practices in keyword research, on-page SEO, and link-building to drive organic traffic.
 - Collaboration: Collaborated closely with the marketing and content teams to align the website's design and functionality with the company's brand identity and marketing goals.
- **Res Locator** [[Link](#)] November 2023 - March 2024
Assistant Web Developer Johannesburg
 - Performance Monitoring: Implemented tools to monitor website performance, including Google Analytics, to track visitor behavior, identify areas for improvement, and adjust strategies accordingly.
 - Team Collaboration: Worked closely with marketing and content teams to ensure the website's design and functionality aligned with the company's brand identity and marketing objectives. Offered technical support and training to staff for managing website content
 - Implemented changes to design to make it consistent with the brand identity

EDUCATION

- **University of Johannesburg** February 2022 - Present
BSc in Info Tech in Computer Science and Informatics Johannesburg
- **Leonadale Secondary School** 2020
Secondary Education Boskburg
 - Head boy

PROJECTS

- **MrS Treets** July 2024 - Present
Tools: [CSS, HTML, C#, Visual Studio Code, Figma, WCF Services, ASP.NET, SQL, SQL Server Management Studio] [[G](#)]
 - Project Overview: Contributed to the development of "Mrs Treets," a mobile and web application designed to connect customers with local street vendors, enabling users to order and have their favorite street foods delivered directly to their location. The platform features real-time tracking, secure payments, and vendor ratings, enhancing both the user experience and vendor outreach.
 - Front-End Development: Led the front-end development using HTML, CSS, and JavaScript to create a responsive and visually appealing user interface. Translated Figma mockups into functional code, ensuring a seamless user experience across both web and mobile platforms.
 - Integration with Backend Services: Worked closely with the backend team to integrate ASP.NET and WCF Services, enabling efficient communication between the front end and the database.
 - Collaboration and Communication: Utilized Slack and Git for team collaboration and version control, ensuring smooth project workflow and effective communication across teams.

SKILLS

- **Programming Languages:** JavaScript, Java, C#, C++, Visual Basic
- **Web Technologies:** HTML5, CSS, Bootstrap, SASS, NodeJS, ReactJS, .Net
- **Database Systems:** MySQL, MSSQL
- **Version Control:** Git, Github
